

UPGRADE YOUR SLIDE BEARING ASSEMBLY FOR LONGER LIFETIME FOR YOUR ROTEX, APEX OR ULTRET

We redesigned the slide bearing assembly for the Rotex, Apex and Ultret screeners, adding a new slide ball made from a proprietary material, amongst other enhancements, that increases life while decreasing maintenance and downtime.

UPGRADED SLIDE BEARING ASSEMBLY

**Includes
2 Year
Warranty***

* Subject to Rotex Standard
Conditions of Sale

Customer Benefits

- Longer Life
- Less downtime for maintenance
- Weight reduction for all components
- Easy to install without shimming – bolt on and go
- Drop-in replacement for most current slide bearing designs

To find out if our new slide bearing assemblies are right for you call Rotex at +44 1928 706 933 or email parts-europe@rotex.com

Lubrication Free Slide Bearings

- Cleaner experience suitable for most applications and environments, even when grease slide bearings were previously required

Greased Slide Bearings

- For environments requiring explosion-proof equipment
- Less frequent and more relaxed greasing requirements compared to traditional steel slide bearings
