

UPGRADE TO MAINTENANCE-FREE OPERATION WITH THE NEW NON-GREASEABLE HANGER

Introducing a premium 332-series hanger for Super Screen, Classic Screen/ Chip Screen, and Multi-Deck machines. Engineered to eliminate routine greasing, cut maintenance interruptions, and deliver consistent, year-long performance you can count on.

Customer Benefits

- **Improved Reliability**
Eliminates manual greasing, removing the risk of over or under greasing and helping ensure stable, predictable operation.
- **Maintenance-Free Operation**
Permanently sealed lubrication removes the need for routine greasing, freeing maintenance teams from service tasks.
- **Reduced Maintenance Interruptions**
No greasing systems or schedules required. Ideal for hard-to-access installations where routine maintenance is disruptive or impractical.
- **100% Retrofittable**
Fully compatible with existing 332-series hanger systems, allowing fast, straightforward installation with no equipment modifications required.
